

Island Access Subcommittee Notes
April 13; 4pm

- 1- The 1st issue was the need for an access point on North Captiva for the use of all property owners. This access point would ideally include:
- A access for the water taxi
 - B access for barges
 - C availability for golf cart parking
 - D possibility for the site of a community center

The committee felt that all possibilities to secure this Island Access point should be explored to include but not limited to:

- A Island property ownership of the best available tract of land to achieve the most goals
- B a long term lease of existing facilities to achieve the goals
- C a complete study of all options to pay for this goal

2- The 2nd issue was the need for car parking at the Fisherman's Coop. The county has acquired the marina, now it needs to acquire land for parking to make the Marina useable for the residents of the outer islands

The committee wants to make sure that the point needs to be made that in the case of emergencies there must be appropriate ingress and egress to all people on North Captiva.
